|  |  |  | ii. Middle/High |  |  |
| Uniform Required | $\begin{gathered} 0.233 \\ (0.165) \end{gathered}$ | $\begin{gathered} 0.048 \\ (0.091) \end{gathered}$ | $\begin{gathered} -0.022 \\ (0.030) \end{gathered}$ | $\begin{aligned} & -0.025 \\ & (0.020) \end{aligned}$ | $\begin{gathered} 0.014 \\ (0.023) \end{gathered}$ |
| Observations | 522,073 | 531,164 | 170,346 | 170,084 | 3 |

Standard errors clustered by school in parentheses. Regressions are weighted by the inverse of predicted values from a probit regression conducted at the school level. See text for list of variables included. Each regression includes student and school fixedeffects, a lagged dependent variable, grade indicators, year indicators, interactions of grade and year indicators, and the student's freelunch, reduced-price lunch, or other economic disadvantage status. Elementary includes students in grades 1-5, while middle/high includes grades 6-12. *, **, and ${ }^{* * *}$ denote statistical significance at the $10 \%, 5 \%$, and $1 \%$ levels, respectively.

Appendix Table 2A: Number of Fixed Effects in Regressions of Uniform Effect on Discipline, and Attendance (Tables 4)

|  | Attendance <br> (1) |  | Discipline <br> (2) |
| :---: | :---: | :---: | :---: |
|  | A. Females |  |  |

| Uniform Required | $\begin{aligned} & 0.271 * \\ & (0.160) \end{aligned}$ |  | $\begin{aligned} & -0.025 \\ & (0.048) \end{aligned}$ |
| Observations | 374,033 |  | 379,259 |
|  | B. Males |  |  |
|  | i. Elementary |  |  |
| Uniform Required | $\begin{gathered} -0.126^{* *} \\ (0.059) \end{gathered}$ |  | $\begin{gathered} 0.004 \\ (0.019) \end{gathered}$ |
| Observations | 297,571 |  | 302,393 |
|  | ii. Middle/High |  |  |
| Uniform Required | $\begin{gathered} 0.120 \\ (0.143) \end{gathered}$ |  | $\begin{gathered} -0.002 \\ (0.078) \end{gathered}$ |
| Observations | 373,362 |  | 378,821 |

Standard errors clustered by school in parentheses. Each regression includes student and school fixedeffects, grade indicators, year indicators, interactions of grade and year indicators, and the student's freelunch, reduced-price lunch, or other economic disadvantage status and an indicator for whether the current principal is a new principal. Elementary includes students in grades $1-5$, while middle/high includes grades 6-12. ${ }^{*}$, **, and ${ }^{* * *}$ denote staistical significance at the $10 \%, 5 \%$, and $1 \%$ levels, respectively.

Appendix Table 4: School-Level Estimates Effect of Uniforms on Disciplinary Infraction Rates

|  | Infractions PerPupil <br> (1) | In-School Suspensions PerPupil (2) | Out-of-School Suspensions Per Pupil (3) | Other Infractions Per-Pupil <br> (4) | Percent of Infractions That Result in In-School Suspensions (5) |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | A. Elementary |  |  |  |  |
| Uniform Required | $\begin{gathered} 0.019 \\ (0.017) \end{gathered}$ | $\begin{gathered} 0.006 \\ (0.005) \end{gathered}$ | $\begin{gathered} 0.012 \\ (0.016) \end{gathered}$ | $\begin{gathered} 0.001 \\ (0.002) \end{gathered}$ | $\begin{gathered} 0.000 \\ (0.029) \end{gathered}$ |
| Observations | 1,903 | 1,647 | 1,647 | 1,647 | 1,552 |
|  | B. Middle/High |  |  |  |  |
| Uniform Required | $\begin{gathered} 0.089 \\ (0.058) \end{gathered}$ | $\begin{aligned} & 0.093 * \\ & (0.051) \end{aligned}$ | $\begin{gathered} 0.006 \\ (0.033) \end{gathered}$ | $\begin{gathered} 0.008 \\ (0.005) \end{gathered}$ | $\begin{gathered} 0.052 \\ (0.037) \end{gathered}$ |
| Observations | 1,299 | 1,114 | 1,114 | 1,114 | 1,085 |

Standard errors clustered by school in parentheses. Data only includes infractions that result in a suspension or more severe punishment. Less severe infractions such as those that result in detention are not observed. Each regression includes school fixed-effects along with shares of the school in each grade, female, black, Hispanic, Asian, White, Native American, eligible for free lunch, reduced-price lunch, otherwise economically disadvantaged, and year indicators. Elementary include anys chool with students in grades $1-5$, while middle/high includes any school with grades $6-12 . *$, ${ }^{* *}$, and $* * *$ denote statistical significance at the $10 \%, 5 \%$, and $1 \%$ levels, respectively

Standard errors clustered by school in parentheses. Each regression includes student and school fixed-effects along with grade indicators, year indicators, interactions of grade and year indicators, and the student's free-lunch, reduced-price lunch, or other economic disadvantage status. Elementary includes students in grades 1-5, while middle/high includes grades 6-12. *, **, and ${ }^{* * *}$ denote statistical significance at the $10 \%, 5 \%$, and $1 \%$ levels, respectively.

| Observations | 279,315 | 279,349 | 215,425 | 212,820 | 212,454 |

Standard errors clustered by school in parentheses. Each regression includes student and school fixed-effects, grade indicators, year indicators, interactions of grade and year indicators, and the student's free-lunch, reduced-price lunch, or other economic disadvantage status. Elementary includes students in grades 1-5, while middle/high includes grades 6 $11 .{ }^{*},{ }^{* *}$, and ${ }^{* * *}$ denote statistical significance at the $10 \%, 5 \%$, and $1 \%$ levels, respectively.

Standard errors clustered by school in parentheses. Each regression includes student and school fixed-effects, grade indicators, year indicators, interactions of grade and year indicators, and the student's free-lunch, reduced-price lunch, or other economic disadvantage status and an indicator for whether the current principal is a new principal. Elementary includes students in grades 1-5, while middle/high includes grades 6-12. ${ }^{*}$, ${ }^{* *}$, and ${ }^{* * *}$ denote staistical significance at the $10 \%, 5 \%$, and $1 \%$ levels, respectively.

| Observations | 1,213 | 811 |

Standard errors clustered by school in parentheses. Elementary includes any school that has students in grades 1-5 and middle high covers grades 6 - 12. Data on teacher attrition covers 1996-07 through 2004-05. Attrition is calculated by matching teacher names within a school across years. Counts for the number of student, school and principal fixed-effects in each namacninn nua nmoridad in Onlina Annondiv Tohla?

[^0]:    $\overline{\text { Standard errors clustered by school in parentheses. Each regression includes student and school fixed-effects, grade indicators, year }}$ indicators, interactions of grade and year indicators, and the student's free-lunch, reduced-price lunch, or other economic disadvantage status and an indicator for whether the current principal is a new principal. Elementary includes students in grades 1 5, while middle/high includes grades 6-12. *, ${ }^{* *}$, and $* * *$ denote staistical significance at the $10 \%, 5 \%$, and $1 \%$ levels, respectively.

[^1]:    Standard errors clustered by school in parentheses. Covers grades 1-5. Each regression includes grade indicators, year indicators, interactions of grade and year indicators, and the student's free-lunch, reduced-price lunch, or other economic disadvantage status. ${ }^{*}$, ${ }^{* *}$, and ${ }^{* * *}$ denote staistical significance at the $10 \%, 5 \%$, and $1 \%$ levels, respectively.

[^2]:    Standard errors clustered by school in parentheses. Each regression includes student and school fixed-effects along with grade indicators, year indicators, interactions of grade and year indicators, and the student's free-lunch, reduced-price lunch, or other economic disadvantage status. Elementary includes students in grades $1-5$, while middle/high includes grades $6-12 . *$, **, and *** denote statistical significance at the $10 \%, 5 \%$, and $1 \%$ levels, respectively.
